PLEXIGLAS®

PLEXIGLAS® LED application in Chengdu 339 project

Market segment

Lighting Technologies

Product

PLEXIGLAS® LED (former
PLEXIGLAS® EndLighten T)

Location:

Chengdu, Sichuan Province

Fabricator

SHA Chiefair Co., Ltd.

Selection criteria

Design flexibility and lighting visual effect

Description of the application

The Chengdu 339 project consists of Chengdu TV tower, the highest building in West of China, and three high-end commercial buildings.

Approximately 3000 square meters PLEXIGLAS® LED in 15mm are used to illuminate the entire commercial building facade. The material perfect combines functionality and design freedom.
