Elmshorn, [www.cdp-display.com](http://www.cdp-display.com)

#### Designer

Udo.Strack Corporate Concepts GmbH, Hamburg  
[www.udostrack.com](http://www.udostrack.com)

#### Selection criteria

Appearance, surface quality, fabrication options

#### Description of application

42 displays for textile samples, made of 8mm thick white PLEXIGLAS® GS sheets, laser-cut in size 1,830mm x 350 mm.

The sample holders were vertically fastened with invisible white-coated aluminum U-profiles. 30 clear PLEXIGLAS® XT rods of 200 mm in length were horizontally inserted and bonded for each display element. Laser-cut discs made of 2mm thick clear PLEXIGLAS® XT were bonded to the ends of the acrylic rods to ensure precise positioning of the rolls of fabric.

With a total of 42 displays, Hadler & Hollerbuhl can impressively present a selection of 630 different textiles.
