Feet for sound absorbing partition wall

Market segment

Furniture, exhibition, shopfitting

Products

PLEXIGLAS® Satinice White WH10 DC,
thickness 10 mm

Fabricator

Theodor Schmid GmbH
Flat glass processing and PLEXIGLAS® fabrication
www.glasschmid.de

Description of the application

The sound absorbing partition walls are made of translucent acrylic, with which PLEXIGLAS® Satinice blends perfectly. The PLEXIGLAS® was cut by CNC cutter. Afterwards the holders were bended by thermoforming and fixed in the accordant opened position for the intake of the partition wall.
