

Reference

PLEXIGLAS®

Greenhouse at Antarctica

Market segment

Construction and Architecture, Greenhouse

Location

China Great Wall research station in Antarctica, located at King George Island of Antarctica

Product

PLEXIGLAS® Alltop, 300 sqm

Fabricator / Designer

Shanghai Dushi Green Co.

Selection criteria

Optimal greenhouse covering material for this extreme weather condition in Antarctica.

Description of the application

After 2 years researching and testing the project owner Polar Research Institute of China and greenhouse builder Shanghai Dushi Green Co. selected PLEXIGLAS® Alltop as optimal greenhouse covering material for this extreme weather condition in Antarctica.

It is a greenhouse using for fresh vegetables planting.

The white ball nearby the greenhouse is a "satellite communication device".
