

Reference

PLEXIGLAS®

Greenhouse Floricultura in the Netherlands

Market segment

Industrial Construction & Architecture,
Greenhouse

Product

PLEXIGLAS® Alltop SDP, approx. 60.000 m², buildt
in several steps between 1999 and 2008

Location

Heemskerk, Netherlands

Fabricator

Bosman, Aalsmeer, Netherlands

Selection criteria

- high light and UV transmission
- energy efficiency
- excellent resistance to weathering and aging

Description of the application

Brothers Kees and Rene Schoone specialize in breeding young orchid plants. In this business, climate and UV permeability are an advantage. Greenhouses made from windtight PLEXIGLAS® double-skin sheets can achieve a tropical climate that makes orchids feel right at home. Its UV permeability has a positive effect on the growth of the plants. Our investment here, therefore, is in powerful growth and energy savings.
