

Reference

PLEXIGLAS®

Greenhouse Green Hill in South-Korea

Market segment

Industrial Construction & Architecture,
Greenhouse

Product

PLEXIGLAS® Alltop SDP, approx. 2.000 m²,
built in 2010

Location

Seoul, South-Korea

Fabricator

Horticultural company Green Hill

Selection criteria

- high light and UV transmission
- energy efficiency
- excellent resistance to weathering and aging

Description of the application

Hyun O. Jang, president of Green Hill plant nursery, also chose PLEXIGLAS® Alltop double-skin sheets as the durable new roofing material for his Venlo greenhouses. The money saved on heating costs during the cold winters of Seoul and, above all, the material's UV permeability were key to the decision. Green Hill's most important crops are its hydrangeas, which reveal their full magnificence under the PLEXIGLAS® Alltop roofing.
