PLEXIGLAS®

Greenhouse Matsui Orchids in California

Market segment

Industrial Construction & Architecture,
Greenhouse

Location

Salinas, USA (CA)

Product

PLEXIGLAS® Resist SDP 8 NO DROP,
approx. 100.000 m², built in steps between 2005
and 2007

Selection criteria

- high light transmission
- energy efficiency
- excellent resistance to aging
- robust

Fabricator

Greenhouse System USA, Watsonville (CA)

Description of the application

Andy Matsui in California's Salinas Valley opted for cold-curvable PLEXIGLAS® Resist double-skin sheets as the glazing material for his curved greenhouses. The durability of the PLEXIGLAS® glazing and the excellent climate inside the greenhouses were the main reasons for his decision. Matsui is one of the leading producers of potted orchids such as Phalaenopsis in the USA.
