

Reference

PLEXIGLAS®

Greenhouse Mustakosken in Finland

Market segment

Industrial Construction & Architecture,
Greenhouse

Product

PLEXIGLAS® Alltop SDP, approx. 15.000 m²,
buildt in 2000

Location

Seinäjäki, Finland

Fabricator

Schetelig, Vantaa, Finland

Selection criteria

- high light and UV transmission
- energy efficiency
- excellent resistance to weathering and aging

Description of the application

Mr. Jorma Mustakosken cultivates cucumbers and tomatoes in three greenhouses with a total surface area of about 7 hectares.

He has had over 20 years' experience with PLEXIGLAS® doubleskin sheets. But never before have the yields in cucumbers and tomatoes been so high as in the two new PLEXIGLAS Alltop® SDP greenhouses in Seinäjoki, which are 21 m wide and 240 m long.

The climate is very good and the lighting conditions are fantastic, thanks to the PLEXIGLAS® Alltop coating.
