3.200 m², built in steps between 1985 and 2007

Selection criteria

- high light transmission
- energy efficiency
- excellent resistance to weathering and aging
- robust

Fabricator

Hyodo, Fukuroi, Japan

Description of the application

The family-owned Yasui gardening company grows the famous Shizuoka Crown melons in 14 special Japanese-style melon greenhouses. All of the company's greenhouses are glazed with PLEXIGLAS®. The excellent climate beneath PLEXIGLAS® allows these muskmelons to flourish, and provides fruit of outstanding quality. This premium product has received a seal of quality from the Shizuoka region and commands top prices. The melons are often handed over to guests as a gift on festive occasions.
