PLEXIGLAS®

Machine guards

Market segment

Industrial Construction & Architecture,
Industry and Safety

Product

PLEXIGLAS® GS Clear, thickness 8mm

Fabricator

HECKER® Kunststofftechnik Dortmund
(www.plexiglas-hecker.de)

Location/customer

Hapa AG, Volketswil

Selection criteria

Occupational safety, hygiene, noise control and process control during operation, with an attractive design that promotes sales.

Description of application

A high-quality transparent machine guard made from PLEXIGLAS® is the ideal solution for progressive mechanical engineers. It complies with all requirements in terms of occupational safety, hygiene, noise control and process control during operation, while offering an attractive design that promotes sales. PLEXIGLAS® GS sheets in 8mm thickness are skillfully formed and precision-milled at the lowest possible tolerances on 5-axis CNC machines. The elegant, transparent design without obtrusive profiles is rounded off by brilliant, high-quality bonding. The machine guard was produced for the successful international marketing of HAPA AG, one of the world's leading manufacturers of printing systems for the pharmaceutical industry.
