## PLEXIGLAS®

### *Situation Kunst* Museum in Bochum

#### Market segment

Lighting Technologies

#### Product

PLEXIGLAS® LED rods (Endlighten T)

#### Location

Bochum, Germany

#### Selection criteria

Brilliant lighting engineering properties

#### Fabricator

Light artist: Rolf Zavelberg, Cologne –  
Light fixture manufacturer: RHENAC Systems,  
Bonn

#### Photographer

Gordon Axmann/Aktivraum

#### Description of application

Light artist Rolf Zavelberg used PLEXIGLAS® LED rods to illuminate the *Situation Kunst* Museum (for Max Imdahl) in Bochum.

Together with Aktivraum Agentur für angewandte Lichtkunst and RHENAC Systems, he developed a light fixture composed of PLEXIGLAS® LED rods. These were the ideal solution for the given situation, a synthesis of a modern glass façade and old brickwork.

By feeding in colored LED light on both sides, it was possible to bring to life Zavelberg's poetry of light in a variety of moods during the live event (see photos).
