

Reference

PLEXIGLAS®

Slotcar track

Market segment

Furniture, exhibition, shopfitting

Product

PLEXIGLAS® Satinice WH10 DC

Location

Vienna, Austria

Fabricator/Designer

Acrylstudio W und G GmbH
IZ NÖ-Süd Straße 15
A-2355 Wiener Neudorf

Selection criteria

PLEXIGLAS® was chosen because it can be formed in complex shapes and allows for interesting lighting using LEDs.

Description of application

PLEXIGLAS® was routed, assembled after forming and illuminated with LEDs. The relative ease of forming and the assembly options (screw fastening and bonding) turned out to be of great advantage when realizing this project. But the crucial factor was the perfect combination with light, which is mainly responsible for the extremely high-class appearance.
