PLEXIGLAS®

Vitra Museum

Market segment

Furniture, exhibition, shopfitting

Location

Weil am Rhein, Germany

Product

PLEXIGLAS® GS, clear

Fabricator / Designer

SK Scheidel Kunststoffe-Glas GmbH, Villingendorf
www.scheidel-kunststoffe.de

Selection criteria

- material with high brilliance
- easy to handle and to process

Description of the application

The Vitra Design Museum numbers among the world's leading museums of design. It is dedicated to the research and presentation of design, past and present, and examines design's relationship to architecture, art and everyday culture. In the main museum building by Frank Gehry, the museum annually mounts two major temporary exhibitions. Smaller parallel shows are presented in the Vitra Design Museum Gallery, a neighbouring exhibition space. Often developed with renowned designers, many of the museum's exhibitions cover highly relevant contemporary themes, such as future technologies, sustainability or questions like mobility and social awareness. Others address historical aspects or protagonists.

During an exhibition high class samples were displayed in showcases which were created with PLEXIGLAS® by SK Scheidel Kunststoffe.
